KEY FINDINGS

What this demonstration is designed to identify :

- 1.**Customer Demand** - which products/categories customers actively request
- 2.**Unmet Demand** - which requested products/categories are frequently unavailable
- 3.**Ordering & Stock** - where stock-outs, order reasons, and supplier fulfillment patterns may affect service

Summary at a Glance

Highest Unavailable Requests

97

Antimalarial - Option C: highest unmet demand, not routinely stocked

Review Products

23

Products flagged for review across the catalogue

Average Fulfillment Days

4.04

Average time from order to receipt, across all suppliers

Synthetic demonstration data — not a live pharmacy analysis. Findings indicate products and patterns for review, not automatic purchasing recommendations.
